- If there isn't any, dig a seep under a creek bed
- Boil water before drinking if possible

Mind your hygiene and stay dry

- Keep the moist parts clean and dry
- Toilet routine will be complicated but manageable (just don't use poison ivy!)

Learn how to start a fire

- Choose a safe spot, away from leaves and trees
- Make a ring of rocks for additional safety
- Multiple ways to start it without matches

Find your way

- Don't rely on tech or maps

These will not be provided by the Camporee or Camp Durant and must not be dedicated to the vehicle. In addition, you will need a “permit” from the Camporee to drive on Camp after check-in is complete. Camporee Program Events

The Camporee will focus on the Patrol method. Patrols will demonstrate Scout skills and Scout spirit during all events.

Events are designed to be done with as few as 4 Scouts. However, individual events will allow no more than 10 participants. If a group is smaller than 4, they should still attempt participation or join another small Patrol if they want to. Patrols members will remain in the same Patrol throughout the Camporee to be fair. This will be done by Patrol Rosters. Patrol Rosters will be due to the Program Director at Roundtable on Friday.

Judging & Scoring:

All score cards will be turned in to the Program Director following the last patrol completing the events. All events have objective grading requirements, and some are **TIMED EVENTS**.

- 2. Signaling, demonstrate survival signaling techniques.**
- 3. Survival navigation, Identify North day and night.**
- 4. Shooting sports.**

- 7. Fire building, build and maintain a fire using one of the offered fires starting methods.**
- 8. Climbing/bouldering.**
- 9. Knot tying, see change log.**
- 10. Mystery event, basic scout skill.**

No Utensil's Cooking Competition Rules

The cooking competition will be keeping with our theme this year of “Be Prepared, Not Scared,” cooking without any utensils! There are lots of resources on the internet by googling “no utensil cooking.”

When camping for long stretches, cooking is necessary for an adventurer to get all of their nutrients. But sometimes, there might not be any utensils available to make this happen. Without utensils, you might wonder what you can use to cook. The natural world is full of useful tools, which can be compliments to any items you might have on hand.

The first step in cooking without utensils is to gather other materials in your arsenal. Without those, you may be limited in terms of what you have access to.

Some of the tools to consider when cooking without utensils while camping include:

- Cleaned sticks or skewers for roasting
- Tinfoil that you may have on hand for cooking
- A large rock for cooking
- Large pieces of wood for cooking
- Smaller rocks for cutting and grinding
- Plastic bags and cups for cooking
- Scout ten essentials

Each troop will be given a maximum of 3 hours to complete 2 dishes; a main dish and a dessert. One dish must incorporate a “Secret Ingredient.” Secret ingredients will be distributed at the meeting on Friday night.

You will present your troop's recipes to the judges on Friday night before the “Secret Ingredient” will be handed out. Recipes should be on the included form.

Competition will start at 2:00 PM and finish at 5:00 PM. Cooking will take place at your sites with random visits by judges. You will prepare your presentation plate of food and get it to the judging area located at the STEM building no later than 5:00 PM. Plan accordingly as dishes must be served to judges at a temperature appropriate for eating. Any dish not ready on time may be disqualified from the judging.

There will be a panel of 3 judges with a total of points per entry. The patrol will be required to tell the judges how they incorporated the “Secret Ingredient” into their dishes.

50 points for taste

30 points for best use of “Secret Ingredient”
